APPENDIX

Table 5

Questionnaire with constructs, items and references

Variables	**Source**
Affective Risk Perception (AP)	Bae and Chang (2021)
I am worried about Covid-19 occurring in my region (AP1)	
I am worried that I will contract Covid-19 while I am travelling (AP2)	
I am worried about post-acute Covid-19 syndromes as a permanent health issue (AP3)	
Cognitive Risk Perception (CP)	Bae and Chang (2021)
There is a high likelihood that I will acquire Covid-19 compared to other people (CP1)	
There is a high likelihood that I will acquire Covid-19 compared to other diseases (CP2)	
There is a high likelihood that I will acquire Covid-19 while I'm traveling (CP3)	
Attitude (ATT)	Sun, Law, and Schuckert (2020)
Contactless payment is a useful payment method while I'm traveling (ATT1)	
Contactless payment is a convenient payment method while I'm traveling (ATT2)	
Contactless payment is an interesting payment method while I'm traveling (ATT3)	
Perceived Behavioural Control (PBC)	Sun et al. (2020)
I have enough resources, time, and opportunities to experiment with contactless payment methods while I'm traveling (PBC1)	

Variables	**Source**
I have enough understanding about the use of contactless payment (PBC2)	
I am confident that if I want to, I can learn how to use contactless payment (PBC3)	
Vaccination (VAC)	Zhu et al. (2021)
I got fully vaccinated (VAC1)	
I am likely to continue to get vaccinated in the future (VAC2)	
I intend to continue getting vaccinated rather than discontinue the vaccine (VAC3)	
Subjective Norms (SN)	Sun et al. (2020)
My family and relatives advise me to use contactless technology payment during my travel (SN1)	
My friends and colleagues advise me to use contacless technology payment during my travel (SN2)	
People surrounding me use contactless technology payment during their travel (SN3)	
Perceived Benefit (PB)	Huang et al. (2020)
I feel using contactless payment is a beneficial and convenient payment method during my travel (PB1)	
I feel using contactless payment is safer than traditional payment during my travel (PB2)	
I feel using contactless payment helps me to avoid the disease infection during my travel (PB3)	
Behavioural Intention (BI)	Bae and Chang (2021)
Given the opportunity, I will use contactless payment during my travel (BI1)	
I am willing to continuously use contactless payment during my travel (BI2)	
I will make an effort to use contactless payment as my mainly payment method during my travel (BI3)
